About Fuse Capital

Fuse Capital breaks the mould of finance and traditional technology advisory firms. Operating since 2013 with clients in UK, Europe & Asia, we have helped over 350 clients secure bespoke private debt solutions. Our passion for supporting entrepreneurs and insight into the best private funds around the world enables us to accelerate growth.

We pride ourselves on our financial acumen yet are unlike traditional finance people. There are no suits worn in our office, instead, you will meet a team of diverse and young minds looking to connect and collaborate.

Fuse Capital follows a flat hierarchy methodology; everyone's voice is heard and encouraged. We enjoy the flexibility of hybrid working and believe that by bringing the right people together at the right time, our YOY growth trend will continue.

Role Overview

Due to rapid growth, we are looking to hire a dedicated and experienced Investment Analyst. Our Investment Analysts work closely with our Investment Managers and the Head of Advisory to assist with the management of client relationships and execute lending advisory transactions. With exceptional deal flow and exposure to a global client base of technology enabled high growth technology businesses, many of whom are VC backed you will have the opportunity to work in a dynamic environment, developing broad skills in debt advisory and private credit execution with significant client interaction. You will have regular exposure and day to day interaction with Founding Management and Head of Advisory. A strong attention to detail and the ability to work under pressure is essential. So, if you are ambitious and a looking for your next challenge, Fuse Capital is an excellent place to grow your career.

Key Responsibilities

- Assist in execution of Fuse Capital's lending advisory activities
- Reviewing client financial information and analysis of financial statements
- Building and maintaining financial models (integrated 3 way models incl P&L, Cashflow, and Balance Sheet)
- Drafting and development of client business overviews and Investment Memoranda (IM's)
- Coordinating financial due diligence and loan documentation with clients and lenders
- Managing deliverables and deal information flow
- Staying abreast of relevant industry trends

Competencies:

This role requires strong technical skills, and preferably candidates will bring expertise in:

- Financial modelling
- Financial statement analysis
- Preparation of high quality marketing, investment and /or credit papers with an ability to synthesise and concisely present information from a diverse range of sources
- Strong interest in working with high growth technology enabled businesses
- Demonstrated problem solving and organisational skills
- Strong communication skills, both written and verbal.
- Collaboration skills and ability to work in a team setting
- Advanced Microsoft Excel and PowerPoint skills

Development Value:

- Exceptional deal flow and exposure to a global client base of technology enabled high growth technology businesses, many of whom are VC backed
- Regular exposure and day to day interaction with Founding Management and Head of Advisory
- Opportunity to work in a dynamic environment, developing broad skills in debt advisory and private credit execution with significant client interaction
- Open and collegiate working environment

Qualifications & Requirements

- Educated to degree level preferably in a finance or related discipline i.e. law, engineering or STEM degrees.
- Fluent written and verbal communication in English
- MBA / Advanced degree/ CFA / CA highly advantageous but not required
- Analyst: 1-2 years work experience
- Associate: 2-4 years work experience

Preferred Prior Roles / Experience

- Debt or equity advisory
- PE or VC investment
- Front-office banking or Research & Analysis roles in Commercial, Corporate and Institutional Banking
- Investment Banking / M&A
- Leveraged & Acquisition Finance
- Back office Corporate Finance execution teams
- Corporate Development / In-house M&A roles
